General Ignatief has given orders to send two new expeditions from Yakoutsk in search of the shipwrecked crew, and has directed that every available means be emired. went to the rescue started three days ago, the time necessary to find the party and bring them back to Yakutsk will be about two months. Nor should it be forgotten that although the whereabouts of Melville and his party is pretty well known, that of De Long, who sent forward Nendiman and Moras out of his party of thirteen, is not known, and that for the succoring expedition to reach him will take a long time over the country where there are no roads. The distance from Yakoutsk to Irkutsk is 2,818 versts, or 1,000 miles, with haupered postal, which will the Jeannette party themselves in less than three months as the telegraph wire does not extend beyond Irkutsk. From Irkutsk to St. Petersburg will take them probably a month, traveling as rapidly as possible, although they will probably be at St. Petersburg by April and in New York by May. This is all the information I have received to date. In case the government should wish to communicate directly with the Jeannette. I beg leave to say that General Anouchin, Governor of Eastern Siberia, is now in St. Petersburg, but that his representative during his absence is General Pedashenski, with whom you can correspond direct. In case any further news is received I shall at once inform you."

The Situation of Affairs in the Emerald Isle. Dunlin, December 23.—Piggott, former

proprietor of the Dublin Irishman, has published a letter in which he says that

ngainst the Government, and that the Lord Mayor is more anxious to damage the Government than help the landlords. The Lord Mayor has consequently addressed a letter to the Governor of the Bank of England stating that the object of the fund is to uphold the rights of property againstan organized combination to defraud and sustain the liberty of contract and the liberty of action.

The Duke of Marlborough, replying to the circular from Lord Mayor asking his co-operation as Lord Licutenant of Oxfordshire in the movement for the defense of property in Ireland, gives his consent, but disclaims faith in any voluntary agency being able to supply the forces which are requisite to cope successfully with the state of dissatisfaction and resistance into which the country has been allowed to drift.

Startling Forgeries at Camden, N. J.
Philadelinia, December 23.—It has been developed that Horace Hammell, of Camden, who has become financially embarrassed, has also issued forged notes to a large amount. One forged note turned up on Tuesday. It was in the name of Mr. Warner. Yesterday another forged note for \$3,000 was discovered, issued in the name of Mr. Merritt, Warner's partner. A flour and feed man in Gloucester, who was in pattership with Hammell, says he is ruined by Hammell's operations. The Camden banks say they are unable to give an accurate idea of their loss. Hammell's forgeries were discovered by the presentation for payment of a certificate of building association stock, which, in the absence of Hammell, who was sick, had been presented to the president of the Poessented to the president of the Newston Building Association of Camden for rectemption. The president looked over his list of sharcholders, and not finding a name to correspond with that upon the certificate, became suspicious that the tone the certificate, became suspicious the facts set forth in the hypothelical questions.

Washington, December 23.—Immediately upon the opening of court Guiteau desired to be heard, and without any show of excitement said: "It is said that I have been abusing Scoville; now the fact of the matter is I want to make a speech about that. Judge Porter thought it would be entirely out of place for the Court to be asked to rule upon such a proposition, and, speaking for the prosecution, promised no objection to Reed and no criticism of his course in becoming counsel for the defense. Judge Cox—I think that sufficient. I have privately stated that I saw no objection to such a course on Mr. Reed's part.

After some discussion between the counsel relative to striking out certain portions of Dr. Damon's testimony, Corkhill was about to call a witness when Guiteau broke out excitedly: "There's a vast amount of rubbish getting into this case that has nothing to do with it. I want to know what all this has got to do with the condition of my mind on the second of July. You can't tell what is going on now in that foreman's mind or Judge Cox's. How can you tell what was on my mind on the second of July? All this is nonsense. Whether I'm insanc, or was five years ago, has nothing whatever to do with this case." Striking the table and becoming more and more excited, he continued: "If I can't get justice hers I expect an act of God for my protection.
